

DATE	START	END	HRS	NOTES
WK1				
Dec 29	8:00 PM	10:00 PM	2	Put down concepts for desktop version of 1wallet. And then some mobile concepts I already jotted down. This will be part of another Med/Hot/Spicy trio.
Dec 30	11:00 AM	3:00 PM	4	Wireframes and loose design pieces done for both hot/spicy. Using Enders gate for nft. Spicy is pretty fire. Hot will feel classic and secure. I am trying to figure out a concept for a third. Might be a curveball.
	10:30 PM	12:30 AM	2	Created account switcher, changed for both light/dark, improved nft view, added deposit view
Dec 31	8:30 AM	11:30	2	Finishing nft collections as a page, now referring to overview nft's as a widget. same concept applies to all other prototypes
	6:00 PM	11:00 PM	5	More details on hot prototype overview/assets/nft, as well as spicy prototype overview. Hooked up a few animations here and there. I still need to come up with a third prototype.
Jan 1	12:00 PM	4:00 PM	4	Reconfigured menu system for Spicy, as well as swap interface done. Withdraw and deposits now finalized for both hot and spicy.
Jan 2	10:00 AM	1:00 PM	3	Refined menu system. Added icons to links. Changed grid
Jan 3	10:00 AM	4:30 PM	6.5	Began and buttoned up design for prototype I'm calling "cool".
WK2				
Jan 10	6:00 PM	10:00 PM	4	Settled down and redid the main page now that Hot option was chosen. Everything is now ready as the master template.
Jan 11	8:30 AM	11:30 AM	3	Refactored asset page, NFT page, included a Heart/like function.
	7:30 PM	9:00 PM	1.5	One price dashboard and 1wallet count at the top now.
Jan 13	5:00 PM	12:00 PM	7	Staking process done along with choosing validators. Also Swap page.
Jan 14	11:00 AM	4:00 PM	5	Deposit/Withdraw gets its own page along with recent transaction/history page. Also did buy box.
